Dear Janet,

SPECIES RECORDS

Further to your request, I have conducted a search of the database for the area you identified. These records are attached along with a map indicating their distribution.

Grid references containing a combination of letters and numbers, for example 'SO54E' are formulated according to the **DINTY** system. Such records are often from botanical recording, whereby a 10km square is divided into twenty-five equal 2km x 2km squares, each alpha-coded, thus:

E	J	P	U	Z
D	I	N	T	Y
C	H	M	S	X
B	G	L	R	W
A	F	K	Q	V

Therefore the correct full grid references for SO54E are as follows:
SO5048, SO5049, SO5148 and SO5149
i.e. four 1km squares.

Please keep location details of any bat, badger or newt records confidential.

Please get in touch if you have any queries. I can confirm that the charge for the retrieval and analysis of your requests is [REDACTED]. You will receive an invoice from Herefordshire Council shortly: the Council handle all financial accounting on behalf of HBRC.

I hope that this information proves to be useful. I look forward to receiving new findings and biological records which any survey you undertake yields: this will help us to improve the information available for natural heritage conservation, research, advice, education and public information.

Yours sincerely,

Camilla Winder
Biological Data Officer (HBRC)
