Dear Simon,

I acknowledge receipt of the letter.

I do not actually discharge the condition as it is a condition that requires continual compliance as it states "... but the tree protection measures must remain in-situ until completion of the development."

There is nothing else that you need to do re: condition 6 at this stage prior to the development commencing.

Regards

Roland

Dear Roland

Further to your letter dated 17 July 2014 in relation to the discharge of Condition No. 6 pursuant to Application No. P132734/F, please find attached a letter from our Arboriculturist, confirming that the tree protection fencing has been properly installed and that it conforms with the advice contained within BS5837:2012.

I trust that Condition No. 6 can now be full discharged.

Regards

Simon

Simon,

Please see attached.

I will not send a hard copy as e-mail suffices.

For my info:-

- a) have you submitted the details yet pursuant to condition 2 (may be stuck in our system)?
- b) When do you think you will be able to issue addendum re: contamination report etc.

Regards

Roland close
