Dear Mr Prior,

Following consultation comments from the Environmental Health Team regarding noise in respect of the above application, please find attached an amended plan. As you will see the amenity area serving unit 2 which was deemed to be unsatisfactory has been relocated away from the road and would now be screened by way of a 1.8m high close board fence and a new hedge. I trust that this amendment will overcome the concerns raised.

Please let me know if you have any queries.

Regards

Ben Greenaway
