

Planning application comment was submitted on the **29 September 2023 15:18 PM**

The following is a comment on application **P223881/F** by **Lesley Owen**

Nature of feedback: Objecting to the application

Comment: Further to my previously submitted objection to the planning application, I wish to reconfirm my objections. The very minor changes made to the plans, in no way satisfy the fundamental reasons why this development should not be allowed. Flooding is a real issue here and any development on the flood plain increases the threat of flooding to existing properties, which is already significant. There are also issues connected to pollution locally, to unsafe access for vehicles and pedestrians, which has not been improved and to the local plan being mostly ignored. Our NDP, designed by the Community, supported in a democratic vote sought to protect this field on the eastern boundary of the village from development.
