

Planning application comment was submitted on the **03 April 2025 10:32 AM**

The following is a comment on application **P250532/PSI** by **Stacey Preece**

**Nature of feedback: Support the application**

---

**Comment:** I agree with the rebuild of the school , but i think previsions should be put in place for a safer passage to and from school.

**Infrastructure from section 106 to consider:** I support the building of a new primary school in Peterchurch but there is a need for a zebra crossing to be installed outside the school or somewhere along the road that is suitable to do so. There is nowhere for children, elderly or disabled to cross safely. It is logical to place the crossing outside the school so that it benefits the school and villagers crossing to use the doctor's surgery, shop, village hall and church and the high school.

With the wider community that are having to use the area to collect children from the primary school and the high school the road is very dangerous amd the accumulation of vehicles parked along the road side for collecting is making it increasingly unsafe and dangerous for other road users that being vehicles and pedestrians with poor visibility and sometimes no visibility with the addition of no places to pull in to pass by. There has been a number of near misses and accidents regarding all users along the peterchurch stretch of road and with the footfall for the primary inevitably going to increase with the school and intake size and the increasing cost of a school bus pass making it unaffordable for those with multiple children adding to the problem the amount of vehicles and therefore pedestrians off all ages but a big proportion of these being children is going to increase and inturn going to increase the danger to them which for a parent or member of the public is an increasing concern when you want your child or your self / family member to be in a safe enviroment especially a priority when it comes to the day to day task of getting to school and back.

I am aware i am not a resident of peterchurch but with two children attending the schools here i think it does affect them to and my increasing concern for their safety with getting to and from school 5 days of the week.
