

Planning application comment was submitted on the **23 August 2023 16:01 PM**

The following is a comment on application **P230457/F** by **Linda Sparrey**

Nature of feedback: Objecting to the application

Comment: Further to my previous objection to this development, I have studied the renewed plans, and apart from some boundary changes and additional chimneys to the properties, there has been very little change to this PROPOSED development.

My previous comments stand. It is in a conservation area, which is protected BY LAW. The access roads are totally unsuitable, unviable, and would be dangerous for pedestrians and horse riders. There will also be a devastating impact on the wildlife and ecosystem in a pristine meadow and AONB.

The sewage system cannot cope with the houses already in the village and raw sewage is being discharged into Cradley Brook (1300 hours). There is a 66 bed care home being built as we speak in the village which will also impact on this, and on our already overstretched services, school, and G.P. surgery.

The residents of Colwall have overwhelmingly objected to this PROPOSED development and our views should be respected.
