

Planning application comment was submitted on the **04 April 2024 19:49 PM**

The following is a comment on application **P240422/F** by **Helen Nunn**

Nature of feedback: Objecting to the application

Comment: My main objection is on traffic grounds as the primary access to and from the site is on to the existing busy A438. In my view it is considered to be dangerous to increase the volume of cars to the congestion of cars accessing Bishops and St Mary's schools and the city centre.

Additional paving and hard standing can only increase the runoff of water onto the flood meadows which have been continuously under water this winter since October 2023.

Furthermore, the proximity of the site to the SSSI of Lugg meadows will have a deleterious impact on the habitat of wildlife and flora.

There is not the capacity to accommodate the additional services required by this plan including access to GP's and hospitals.
