The following is a general comment on application P162921/F by Guy Knappett:

"

Whilst I agree in principle with the need for more housing, whether this is the best location for it is debatable. I am a company director with 27 employees located on Rotherwas Industrial Estate. Only 3 of these employees live south of the river due to the lack of decent housing and schools in the south. It therefore stands to reason that any development in the north must go along with the relief road otherwise the severe traffic conditions which Hereford is nationally famous for will be compounded. I would like to see assurances that this development is consequential on major road infrastructure investment so as to make the whole project viable.

"
