G04 Protection of existing trees and hedgerow
G10 Landscaping scheme
G11 Landscaping Implementation
G14 Landscape Management

I hope that covers everything.

In terms of landscape proposals and management, I think this fine to do as a condition (I don't think that this is a particularly sensitive site) so on the basis they agree in principle to the suggestions I have made, then yes.
Liz

Importance: High

Liz, I've forwarded your comments on porch farm to agent, and work is in hand, he has asked whether we can deal with by condition as they have a deadline of mid april to get going due to the existing flock management, and the new to coincide emptying one building, that they are decommissioning and the re stocking of the new ones.

Thanks,Mark.
