**To:** Team P1  
**Subject:** Erection of polytunnels on fields at Trumpet

To whom it may concern

RE: APP/W1850/W/16/3148136

Thank you for informing me about the above appeal.

I wish to draw your attention to the submission that I made concerning the original application and would like this to be considered in determining the appeal. That submission was as follows:

*Dear Mr Close*

*I am writing in reference to a recent planning application P150765/F for Erection of Polytunnels on fields at Trumpet.*

*I understand that comments via the website are now closed but that representations may be submitted to you. I am not sure if this application has already been determined.*

*I am a resident of Putley. I believe that the landscape quality of our neighbourhood is very seriously threatened by the potential spread of polytunnels. The proposal that is the subject of this application would be a further significant step towards considerable landscape degradation from this activity.*

*This is not simply a matter of aesthetics. The quality of the landscape is vital to the quality of Herefordshire as a county in which to live and do businesses. I personally work in the field of tourism planning and development, globally and nationally, and would like to underline the importance of the landscape for the future of tourism, which is an extremely important source of income for rural counties such as Herefordshire.*

Yours faithfully

Richard Denman
