Subject: Discharge of Planning Conditions for Permissions 153490 and 174437

Dear Kelly,

Following your discussions with Andrew, this is the first of three emails in order to discharge the planning conditions (PCs) for the three permissions pertaining to Mirrorbrook. We will confirm when payment has been made.

1. This email relates to the 2016 original (153490), amending some of the PCs that have already been discharged. It includes a letter to you outlining each PC and naming the document (attached in each email) for the discharge of the PC.
2. The second includes the attachments required to address the conditions relating to the amendment (174437), as per the covering letter which is for both 153490 and 174437.
3. The third email includes a separate letter and the relevant attachments for the discharge of permission 182038 from last September for the fifth dwelling.

As agreed, we have looked at this on an holistic basis, and so you'll appreciate the repetition in the attachments but I hope we have sufficiently identified where each detail relates to the specifics of each PC for each permission.

If you have any queries, please just give us a call!

With warm regards,

Beverley and Andrew Parkhill
