

Planning application comment was submitted on the **10 January 2024 19:29 PM**

The following is a comment on application **P233494/F** by **Edward Marriott-Lodge**

**Nature of feedback: Objecting to the application**

---

**Comment:** The lane, known as Common Lane, is in an awful state of repair; construction traffic / machines can only make this worse. Once constructed and inhabited the extra traffic can only damage the lane further.

The mains water pressure / flow rate on Common Lane is already very poor. It is supplied by ancient / inadequate pipes from the village. Recommended acceptable flow rate is 10 - 15 litres per minute. At our house (around 40 metres from the site), it is 5 litres per minute. Extra consumption by additional housing will cause a drop in pressure to ours and neighbouring households.
