Subject: 221509 - Planning application comment was submitted

The following is a comment on application **P221509/F** by 'Tim Hodgetts'

Nature of feedback: submitting_a_general_comment

Comment:

While I have no strenuous objections to the proposal, I am nonetheless concerned about four things:

1. What are the 'associated works' which will be necessary? Will they be unsightly; will they compromise the quiet rural nature of the location?
2. The proposal indicates that the area selected for wild camping will include one public footpath and be extremely close to others. One path leads up into Little Brampton Wood, where there is an abundance of important flora and fauna. How will the integrity of this area be preserved?
3. After seeing the human waste - faeces and litter, to be precise - in other areas of the country where wild camping is permitted, how will this waste be contained & dealt with? What will prevent wild campers from using areas where there are rights of way as lavatories or places to leave rubbish?
4. What will be the maximum number of people / tents permitted and how will any limits on numbers be guaranteed?
