Subject: FW: New Mills Industrial Estate, Ledbury. ref PD/C2961/1144

Morning Roland,

Not sure if these amended reports have been submitted to you. There's still some outstanding gas monitoring required so comments recommending condition sent previously remain unchanged.

Best regards

Nick

Hi Nick,

We have amended the reports taking into account the previous report, although as we suspected this has not affected the overall risk assessment for the sites.

I have sent you an invite via dropbox to share the folder where you can download the full reports. I have also attached the text versions to this email.

Please get in touch if you have any further queries.

Regards,

William Griffiths BSc(Hons) MEnvSc

Good Afternoon Peter,

Having spoken to one of your colleagues, please see attached a report from back in 2011 (<https://www.herefordshire.gov.uk/planning-and-building-control/development-control/planning-applications/details?id=113052&search=113052>). We would be grateful if you could review and amend the submitted desk study and intrusive investigation accordingly where necessary.

Please give me a call if needs be.

Best regards

Nick
