Dear Sir, Application # 163932 (Boris)

I have tried several times to send comments on the above proposal via your website. Having completed the form on several occasions your website has been out of action, so I have resorted to printing a copy of the form which I enclose.

Is your computer system always as dysfunctional?

Yours faithfully,

In general terms, Bromyard needs more jobs not currently more housing. The town is already a dormitory for nearby cities and the Birmingham area via the M5. 500 more houses would augment this trend with negative effects on the environment and the existing [inadequate] road system. The Council's priority should be the creation of Enterprise/ Business parks, encouraging Start-Ups and drawing on central government support for such activity.

In specific terms, as a resident of Tenbury Road, should approval be granted, the matter of access to the main road needs attention. A new access opposite the

Site is being made for the new development on the opposite side of the main road. Currently unrestricted the increased traffic will require a speed limit of 30 mph.
