Select solar 200W Monocrystalline PV solar panel.

Carefully sealed against moisture and connected to a waterproof junction box, these 12V photovoltaic panels are suitable for a range of professional and DIY applications.

To make fitting easy, there are installation holes in the frame for standard bracket systems.

- Heavy duty anodised aluminium frame provides high wind resistance and convenient mounting access.
- Cells are laminated between high transmissivity, low iron, 3mm tempered glass and a sheet of TPT material and finally two sheets of EVA to prevent moisture entering the module.
- Installation holes for standard bracket systems are located on the frame.
- Bypass diodes included to improve shadow tolerance.
- Waterproof versatile junction box provides flexibility of connections.
- Come fitted with positive and negative cables fitted with Type MC4 Multicontact connectors; cables are easy to remove and replace if necessary.
- Dimensions (mm): 1240 x 992 x 40. Weight: 15.0kg
- Rated 200W: 12.13A @ 17.8V
