

Planning application comment was submitted on the **20 November 2023 15:30 PM**

The following is a comment on application **P233010/F** by **Felix Gummer**

Nature of feedback: Support the application

Comment: The group of volunteers who have put together this plan and application have done an extraordinary job. The Community Shop offers the most wonderful opportunity for a new service, amenity, and indeed hub for the community of Much Marcle and passers by. The village is in dire need of this shop as it will provide a place to buy local essentials and access services, somewhere to meet and also a showcase for local produce. This will help reduce car journeys to shop elsewhere, combat isolation of the community and individuals and provide an access to market for small businesses. It is perfectly situated for safe access by the large majority of the local populace and opposite the local pub it creates a natural hub for the community.

The committee has sought tireless consultation from the community, which is reflected in the quality of this application. The community stands in huge support for this, many many members of whom have put their own money behind this project solely because of the huge benefit that it will bring to us all.
