Dear Mr Close,

Re: Proposed Extension & EMI Building, Hazelhurst Nursing Home
Ref: Material Sample

Further to your recent correspondence with Graham Clark regarding the above, please find accompanying this letter a sample of the proposed roofing material for the EMI block (aluminum standing seam colour: Anthracite RAL 7016), for your information.

Unfortunately we were only able to obtain the RAL 7016 in a swatch sample, with the profile sample in the closest available colour.

If you have any queries, please let us know.

Yours sincerely,

Lee Greening
Owen Hicks Architecture
