Dear Sir/Madam

RE: APP/W1850/E/13/2209541

I wish to support the above mentioned appeal. The existing white PVC conservatory is very similar in look to a wooden conservatory which is then painted white. In the area a Grade 2* property known as the Feathers Hotel has a PVC Conservatory built on it & this was granted planning permission because it was on a modern extension of the property. Parsons Cottage has a modern

extension which the conservatory
is ~~and~~ built on too. The extension
contained white PVC windows
originally & this was part of
the cottage when listed.

As the conservatory is not visible
from either the footpaths or
the road I hope you will
consider allowing this
appeal.

Yours Sincerely

MR TIM WILDER
