**Subject:** Independent hydrogeological report: planning application 174246, Cottage farm, Willey

Andrew and Susannah

Please find attached our completed report.  
The report concludes that there is no expected impact on any of the other supplies or water features in the area due to the increased abstraction related with the proposed development at Cottage Farm.  
If you have any comments or queries on the report please do not hesitate to contact me.

Many Thanks
