Dear Kelly,

The parish council discussed the planning application for Magna Farm and made the following comments:

The parish council cannot make any further comments on this planning application as the conditions of the original plan have not been adhered too.

The outstanding issues are as follows:

- Additional willow to be planted along existing roadside hedge.
- The areas to be allowed to grow wild have been extended and are not the area as shown on the plans.
- No timber kissing gate has been installed.
- No stock proof fences have been installed.
- No willow trees has been planted around the rain catchment pond.
- An additional fence has been installed running from the end of new building across to the brook, this is made from posts and rope.

Kind regards,

Jenni Everall

Credenhill parish clerk.
