

Planning application comment was submitted on the **11 April 2024 21:29 PM**

The following is a comment on application **P240422/F** by **Tricia Davies**

**Nature of feedback: Objecting to the application**

---

**Comment:** I wish to object to the application as the scale ,and disruption of such a development will produce grave danger to the Lugg meadow which is a very rare survivor of a traditionally managed meadow.It holds many rare and endangered plants , and provides valuable habitat for endangered birds such as the Curlew and Skylark, which are in decline in the county.These will certainly be adversely affected by such a large development and 350 human households on their doorstep. The increase of footfall in the area produced by this development will be a disaster for the survival and breeding of birds and mammals ithe ecosystem of lugg meadow will certainly suffer.
