The following is a comment on application **P240422/F** by **Jamie Perry**

Nature of feedback: Objecting to the application

Comment: I live in between Warwickshire and Herefordshire and feel passionately about lessening the impact on nature and protecting wild spaces and meadows. Since 1930 the UK has lost 97% of its wildflower meadows to farming and development. This reserve is a triple SSSI site that will be impacted by this new development significantly. At some point we need to say enough is enough. I would like to make it clear that I currently work for Plantlife International that has associations with this reserve but I am responding as an individual who understand the value and importance of this site and visits responsibly as a citizen. I oppose the development as it will have a dramatic affect on the future viability of one of the 3% of meadows left in across the UK.
