The following is a comment on application **P233010/F** by **John Reed**

Nature of feedback: Support the application

Comment: As a local resident I support this application for the following reasons:-

1. It will reduce the need to do shopping and to attend to Post Office matters.
2. The shop will promote social cohesion in a scattered community and reduce isolation particularly amongst the elderly.
3. This asset will be well placed to attract additional passing trade thereby increasing its viability and potential success.
