

Planning application comment was submitted on the **27 March 2024 16:36 PM**

The following is a comment on application **P240422/F** by **Nigel Winters**

Nature of feedback: Objecting to the application

Comment: I am deeply concerned about development proposals on land east of Hereford due to the high risk of unacceptable impacts on Lugg Meadow Nature Reserve next to the site.

This nature reserve is a legally-protected Site of Special Scientific Interest, with a fragile ecosystem and nationally-scarce plant species. It is also one of the few ancient Lammas floodplain meadows remaining in England, adjacent to the River Lugg and part of the wider River Wye catchment.

The proposed 350-home development would risk irreversible damage to this precious, sensitive ecosystem through increased water pollution, noise and light pollution, road traffic and footfall from visitors.
