[REDACTED]

Good morning.

I have noticed there is a new plan that has been submitted to develop the area off Millstream Gardens.

The previous application was withdrawn and a new one submitted.

There has been no notice to local residents including the yellow notice sign for the duration of the comments period. I was no longer able to submit my comment online as this was withdrawn before a month after application.

I feel strongly that 18 houses is far too many on this site and would like to object this application.

Millstream Gardens is a quiet cul-de-sac and extending it will turn it into a through road. At present there are 9 houses in the cul-de-sac section adding 18 houses is tripling the size including the prospect of at least 36 cars using the road daily. I feel strongly this will impact the road and it's nature. Extra noise and disturbance plus disruption during construction.

Please accept my objection on this matter.

Thank you

Kathryn Lloyd
