

Planning application comment was submitted on the **16 September 2023 15:11 PM**

The following is a comment on application **P222728/N** by **Nick Nenadich**

Nature of feedback: Objecting to the application

Comment: This application will cause considerable noise and disturbances in the locality. The traffic and that of large scale tractors and trailers will cause considerable stresses to the small feeder roads in all directions as well as added pollution by their very existence. It is a shame that prime grade agricultural land will become a dumping ground for the end product, as clearly there will be one.

It adds nothing to the local economy and indeed degrades it. Therefore I cannot support this application and know it has caused considerable consternation and distress to the small population of the parish of Yarkhill.
