Subject: Application No. 220855

Dear Chloe

Apologies for the late response in respect of the above, however LTC had been granted an extension for their response.

At a recent planning meeting a number of residents attended to raise their concerns over the removal of trees and the bund alongside the by-pass, the plans clearly show that there will be a breach in the bund and residents were concerned that this is being undertaken on the point where it most likely to cause an affect to local residents in Spring Grove. Councillors felt that this point was fair and therefore I am writing to advise that this council would like it to be recorded that they have concerns over the removal of the trees and bund due to the noise and pollution affect on Spring Grove Residents.

Kind regards

Angie
