Subject: re Further documentation from Garway Parish Council in relation to PLanning  
appliiction 173224 Land North of Ivy Cottage

Dear Fernando

At the Parish Council meeting on Monday 13th November it was RESOLVED to submit  
further documentation in the form of The Parish Council 's lengthsman report relating to the  
road U71413.

Please can this document be added as further comment from Garway Parish Council Thank  
you

Kath Greenow Cert He CEG AILCM

Parish Clerk

Garway Parish Council

## **Terry Griffiths (Contracts)**

Garway Parish Council Lengthsman

Garway Parish Council.

Road Report.

Last March 2016.

U71413.

This is a single track unclassified road in the parish of Garway CP in the county of Herefordshire leading north from the C1239 at Garway Common until it leaves the parish at Trolway Bridge.

From Garway Common to Quab Cottage the road suffers from surface water run-off from surrounding land which causes damage to the road and particularly the tarmac edges.

HCC highways through their managing agent BBLP have indicated that there are no plans or budgeting for upgrade of this road in the distant future.

There is no road drainage in this area so the surface water leaches into the roadside verges which become soft and not able to bear the weight of traffic attempting to pass over them in the absence of passing bays.

At present the volume of traffic on this road is light mainly private and agricultural vehicles with occasional heavy vehicles delivering to adjacent properties.

Any increase in the volume of traffic from its present level would be detrimental and would lead to further damage to this road.

Terry Griffiths.

Parish Lengthsman.

Garway Parish Council.
