The following is a comment on application '**P163932/O**' by '**Aimee Howard**'

**Nature of feedback:** Objecting to the application

**Comment:**

The Tenbury road has very little pedestrian paving, we use this often when walking our dog along the public foot path & I feel very vulnerable as it is really only wide enough for 1 person at a time, it is not safe for a mother pushing a pram or holding a small child's hand side by side. The cars drive very fast along there & I feel this is a health hazard. It also means crossing over a very busy road as the single person pavement is on the opposite side of the access road to the new housing development.
