Subject: 222138 - Planning application comment was submitted

The following is a comment on application **P222138/O** by 'Stephanie Powell'

Nature of feedback: objecting_to_the_application

Comment:

I am objecting this application as the local infrastructure is not going to be able to cope with this amount of houses being built in this area. There is already copious amounts of congestion on Roman Road where I live already, which has worsened in recent months with the ever doubling homes being built opposite me already. [REDACTED] an already overwhelmed health service. Our health service will not be able to cope with the extra residents who will move into these homes from outside of Herefordshire potentially. We do not have the capacity In the GP surgeries, the hospitals, or the schools. I am also concerned about the impact this will have on the wildlife in the area. We have many beautiful birds and other wild animals visiting our garden daily [REDACTED] With these extra homes being built, this will only scare away the wildlife, that we need within our gardens in order to grow flowers and crops. Also, with the cost of living rising , I wonder how many of these homes will simply sit empty? Please, listen to us local residents who object this.
