The following is a comment on application **P240422/F** by **Trudy Woolf**

Nature of feedback: Objecting to the application

Comment: I object due to loss of this area and view for fresh air, scenery and walking which i use on a daily basis for my mental health and wellbeing.

I also fail to understand how they sre expecting to accommodate the additional vehicle traffic and also impact on local schools that are already over subscribed. Lack of infrastructure, additional pollution and flooding rainwater run off which will just push the issue further downstream.
