Land adjacent The Old Court Hotel 7 new dwellings

The Parish Council support this application and support affordable homes in the Parish.
They have however some concerns.
They consider the design of the homes should be closer and more sympathetic to The Old Court Hotel and other homes nearby.
They feel the proposed new homes are rather high and that the height could be reduced.
There are concerns for the additional use to drainage systems and that the discharge into the main system should be avoided.

The Parish Council have no objections.
