The following is a comment on application **P204533/F** by '**Patricia Ronan**'

Nature of feedback: objecting_to_the_application

Comment:

No objection to improving the housing as long as best effort put into long sustainability, better than current building regs require. However, the trees should not be removed. These are valuable for carbon sequestration and health, wildlife. There is no justification for building to accommodate 2 car parking spaces per house. Emphasis must be on enabling cycling, walking and public transport. We are in a Climate Emergency. This situation must guide all decisions.

Their contact details are as follows:

First name: Patricia

Last name: Ronan

Email: 

Postcode: HR4 7PP

Address: Heathfield
Breinton

Infrastructure from Section 106 to consider:

Keep the trees, put in bike stands and shelters, and safe separate cycle networks, only 1 car parking space or less per house, maximum sustainable building infrastructure such as solar, triple glazing, water saving tanks, insulation, underground heat pumps, etc.
