Subject: 222728 - Planning application comment was submitted

The following is a comment on application **P222728/N** by '**Suzanne Stead**'

Nature of feedback: objecting_to_the_application

Comment:

The traffic to and from the proposed site will be considerably higher and of large vehicles incl.tractors which will add to congestion on A417 and A4103 which makes for even more accidents from impatient drivers and damage to road surfaces not to mention extra pollution. It is likely that tractors or lorries will be delivering maize from further a field grown specifically for this B.D adding to the problem. The land in question is full of wildlife and natural countryside of which Herefordshire is renowned and the proposed BD would be an eyesore. The question of foul odour is also detrimental to local households. I don't consider there is a need for another BD in Herefordshire as it seems phosphate and nitrate pollution to rivers and land are destroying fish, wildlife and Herefordshire soil.
