

REAR (WEST) ELEVATION

PROPOSED

SIDE (SOUTH) ELEVATION

PROPOSED

- 1 Replace existing single storey flat roof extension with double height pitched roof extension to create new first floor bedroom to rear of property
- 2 Create new terrace area to rear
- 3 Lower cill of existing window to create new doors to rear bedroom to access garden.
- 4 Remove arched head to window and lower cill to create new 'back door' to house to access garden.
- 5 Changes to external facade: new insulated render, new timber cladding and new windows
- 6 Internal changes to create new loft conversion within the existing envelope, with new rooflights, new internal staircase, and opening up of internal spaces to allow increased natural daylighting internally.
