The following is a comment on application **P240422/F** by **Thomas Cook**

Nature of feedback: Objecting to the application

Comment: I want to appose this as there is more then enough new housing estates around Hereford that are still not full of people it would be more beneficial to Hereford if they ether extended the hight on the hopstial to increase its capacity or create a better road system to make traffic flow more better

Infrastructure from section 106 to consider: The hospital Capacity is always at full.It will make more sense rather to try and expand the hospital.It would make more sense to increase the height level of the hospital to allow extra floors the reduce the issues.
