

CE08 / 2769 / L

Design and Access Statement relating to Bulth House,
Eau Withington, for Mrs Amanda Harrold.

Bulth House is a timber framed property believed to date from the 17th Century, and was formerly a pair of cottages.

Over the years it has been altered and extended at various times. Planning and Listed Building consent was obtained by the previous owner in 2005 to extend the Kitchen. Under code DCCE 2005/2568/ L and DCCE 2005/ 2567/F.

The present owner does not wish to proceed with that scheme but merely wishes to raise the ceiling within the existing kitchen and build in VELUX roof lights to improve the natural lighting.

This proposal is set out on the enclosed plans, and , it is believed does not detract in any way from the present visual appearance of the property.

B.J.CHAMBERLAIN
