**Subject:** Planning application comment was submitted

The following is a comment on application '**P173536/F**' by '**Garry Strudwick**'

**Nature of feedback:** Objecting to the application

**Comment:**

The proposed buildings are too far into the wood and light pollution from them and also the many car lights with vehicles coming and going will be visible to all properties in the two long standing developed rows of properties to the north and south running east from here. If something like this were to go ahead (and I strongly believe there should not be building in an established wood as there are so few left) the buildings should be on the same line as the existing properties, towards Locksters Lane leaving the wood itself in peace. If this goes ahead it will be very negative to the whole area eastwards as we will be slowly surrounded and overwhelmed by development and light pollution from all directions.
