	Other nuisances		Anti Social Behaviour
	Licensing Issues		Water Supply
	Industrial Pollution		Foul Drainage
	Refuse		

Please can you respond by ..

Comments

From a noise and nuisance perspective our department has no objections to this proposal.

Informative Private Water Supplies

The proposed development may not have access to mains water and be reliant on a private water supply. The applicant is advised that the Private Water Supplies (England) Regulations 2016 (as amended) and the Water Supply (Water Quality) Regulation 2016 are likely to apply. In accordance with these Regulations and the Building Regulations 1984 the water must be of a potable and safe standard. If the supply is to be used for shared or commercial purposes including renting, the Private Water Supplies (England) Regulations 2016 specify that the water supply cannot be used until it has been risk assessed by the local authority's private water supplies team (01432 261761) and found compliant. Applicants that are connecting to existing private water supplies or accessing sources of water on land over which they have no control are advised to give careful and specific attention to contractual/civil arrangements including rights of access, maintenance arrangements, provision of alternative water supply are agreed in writing at the outset.
