

Planning application comment was submitted on the **16 April 2024 05:37 AM**

The following is a comment on application **P240422/F** by **Ken Godbert**

Nature of feedback: Objecting to the application

Comment: Having visited the nationally important Lugg meadows for years I have serious concerns about the impact, particularly the scale, the building proposal would have on this habitat and the species that continue to grow and live there. I think it is very important to take into account the opinions of wildlife experts and the local wildlife trust when making a decision
