**Subject:** RE: 242022 - Morrisons Car Park Ecology

OFFICIAL

Good morning Rebecca,

Please see the attached revised plans:

- Block Plan – shows the location of the wash interceptor
- Location Plan – shows the location of the wash interceptor
- Proposed Site Layout plan - shows drainage proposal, which demonstrates that the silt traps of the jet washes will go through the wash interceptor, and this is linked to the combined drain at the petrol filling station. Apologies, I have previously stated that that wash interceptor will connect to a foul water drain, however it is combined.

Could you please confirm that the attached plans are sufficient for the HRA process?

In the meantime, could we please have an extension of time until 6 June 2025?

I look forward to hearing from you.

Kind regards,

Rahma
