The following is a comment on application 'P163755/F' by 'Leila Dawson'

Nature of feedback: Objecting to the application

Comment:

This development is totally inappropriate in a village of this size. 10 houses on one site are far too many and will destroy the character of the centre of the village. This is an AONB where any development is supposed to be in proportion and of attractive design. This proposal meets neither of these criteria:

- the number of houses is too large in proportion to the existing housing on Church Road
- the layout does not respect the linear character of the village
- the designs are banal and are far too uniform in an area of very diverse architecture. A suburban housing estate that could be anywhere at all in the country is totally out of keeping with a Herefordshire village in an AONB.
- the development would completely destroy the character of the village.

In addition, the narrow lanes accessing the village are dangerous to pedestrians and already, at times, extremely busy. The extra traffic generated by this housing will make them even more dangerous. The village has no amenities and only one bus per week, meaning that there is no alternative to driving to work, school or to shop.

I strongly object to this application.
