

Planning application comment was submitted on the **17 April 2024 18:24 PM**

The following is a comment on application **P240422/F** by **Craig Wright**

Nature of feedback: Objecting to the application

Comment: The A438 already is an extremely busy road especially at school drop off and pick up times. If we have another 700 cars entering the Ledbury Road in either direction the traffic will grind to a halt. This will cause immeasurable pollution damaging the quality of air, the impact on vital wildlife and impact on people's health and welfare. The local schools and doctors are already full and having more residents will exacerbate this issue. As we have seen this winter the Lugg Flats have been flooded for over 6 months, where will water run off from the new housing estate when it cannot cope already. Why build on an open space so close to a SSSI which is guaranteed to have a detrimental effect on its inhabitants.
