Subject: In a nut shell

Hi Carl

in a nutshell this below objector has outlined what the issue with our planning is

we are not local people who have farmed for generations and generations and only they have the right to do what we want to do!

regards

Kesri

UK. I understand that the proposal is to build geodomes, again there is the opportunity to stay in one at "Cosyundercanvas", as well as at Raquety Farm, which is highly recommended by many and was recently featured on the Radio 4 programme, "On your Farm" when the owner, Ros Garratt was interviewed. These are local farmers who have always lived in the area and are diversifying to earn more income. They are local people who have farmed the land for generations and I strongly feel they should be given priority for such developments.

For all these reasons, I oppose the development of Llanerch-y-Coed and I hope you will take my views into account.

Yours sincerely

Celia Cundale
