Conclusion

Overall I believe the principle of development is acceptable in relation to Policy RA2 and WNL6 considering the location of the site within Welsh Newton Common. I am of the opinion that the design of the proposed dwelling is also acceptable in relation to the design Policies within the HCS and the NDP. Although the structure is not of the vernacular style, it is suitably sized and will rejuvenate an abandoned plot whilst providing a dwelling of architectural merit.

Any application should be supported with evidence addressing comments made from the Ecology Officer, Tree Officer, and Area Engineer. Furthermore consideration should be taken of the potential for contaminated land at the site, and the potential affect on neighbouring amenity for the property to the west of the site.

This advice is given in the context of your request and the information provided in support and has regard to the Council's planning policy. Should you wish to submit a planning application I would recommend that this advice is taken into account. However this advice is offered without prejudice to any future decision the Council may make following the formal consideration of a planning application.

☐ Yes ☒ No

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?
