The following is a comment on application **162920** by '**James Smith**'

Nature of feedback: Objecting to the application

Comment:

If the planning was accepted - this would have:- 1) an adverse effect on conservation and wildlife - destroying areas of natural beauty 2) major impact on traffic congestion in the area - which is at its limits already 3) with point 2 above this would then have a knock on adverse effect to the environment 4) potential businesses Will move from Hereford - Heineken and Avara if the water supplies are disrupted adversely. This would have devastating consequences on the local economy with the loss of thousands of jobs and knock on effect this will have on the survival of local businesses with individuals spending power gone. I urge Hereford council to decline the application on these grounds.
