9. Materials

Please state what materials (including type, colour and name) are to be used externally (if applicable):

9. (Materials continued)

Walls- description:

Description of existing materials and finishes:

Existing house - to be demolished - features walls in local stone, with areas of red brick detailing around window openings. The ground floor extension is rendered and finished off-white.

Description of proposed materials and finishes:

The proposed will use the stone re-claimed from the demolition of the existing house to ground floor level, and feature Western Red Cedar (from well managed forest in Canada) to the first floor. This wood weathers over many years to a silver-grey colour or can be stained to preserve colour.

Roof - description:

Description of existing materials and finishes:

The existing house features grey roof slates to the main pitched roofs. The lean-to features corrugated polycarbonate roofing. Both have substantial lichen cover.

Description of proposed materials and finishes:

The proposed will feature pitched roofs covered in natural slate, like that of the existing and surrounding properties.

Windows - description:

Description of existing materials and finishes:

The existing house features timber window frames finished in white.

Description of proposed materials and finishes:

The proposal will feature high performance (to passivhaus standard) double or triple glazed windows with mid grey powder coated aluminium frames.

Doors - description:

Description of existing materials and finishes:

The existing doors are timber painted in dark green.

Description of proposed materials and finishes:

The majority of the proposed doors will be glazed and match window specification.

Boundary treatments - description:

Description of existing materials and finishes:

Boundaries are given to timber fencing or various vegetation (the site slopes steeply)

Description of proposed materials and finishes:

No changes are proposed at this time.

Vehicle access and hard standing - description:

Description of existing materials and finishes:

An existing hard paved driveway provides access to this and the property behind.

Description of proposed materials and finishes:

It is proposed a level connection be made to the existing driveway, providing standing for two vehicles.

Lighting - add description

Description of existing materials and finishes:

Unknown / not in use.

Description of proposed materials and finishes:

The proposed will feature lighting (with low energy LED fittings) to external soffits to enhance the night time setting of the building within the site and illuminate the external deck areas. This will not create glare for surrounding property. Security / access lighting will be provided to allow safe passage to the entrance.

Are you supplying additional information on submitted plan(s)/drawing(s)/design and access statement?
