Subject: Hereford Southern Link Road

Dear Ms Gibbons,

I am writing in connection with the Hereford Southern Link Road, on behalf of Nikki Wood. Nikki acts for Mr Priddle's and she has asked me to pass on her comments in relation to this matter:

1. The Environmental Statement (ES) does not present all of the route alignments considered during the Council's sifting process, and the requirements of EIA legislation is that all of the main alternatives considered should be presented.
2. Additionally, the Design Manual for Roads and Bridges provides guidance specifically for how road projects should be considered, and sets out the clear process for option selection. It appears that PB has not followed the intent of the guidance.
3. In conclusion, several of the route options were dismissed by the Council/ PB without explanation in the ES.

Yours sincerely,

Sophie Day
