The following is a comment on application '**P162556/F**' by '**Susan Holmes**'

**Nature of feedback:** Submitting a general comment

**Comment:**

I am concerned that the proposed development will lead to local residents suffering frequent repeated and highly unpleasant smells. I understand that there are strict guidelines as to the level of air pollution emitted from such poultry units, however as all the residents living in this part of Stoke Prior Lane suffered appalling nauseating smells from a previous development processing chicken feathers to the south of us , we are naturally anxious that we will not be subjected to such distress again. I gather smells only escape when a unit is being cleaned out, however this will undoubtedly be quite often. I was alerted to this potential problem by an elderly neighbour living slightly closer to the site who is extremely concerned that all of us will be affected adversely. I would be grateful for your reassurance that this is not the case and that if there is a future problem, steps will be taken to close down or otherwise stop the problem.
